- GB38** The width of one hand and one thumb above the crown of the outer ankle.
- LI04** On the back of the hand between the thumb and index finger metacarpal bones. Find the spot midway on the bone that connects the index finger to the wrist. Sometimes this point is easy to find by squeezing two fingers together to form a small mound and marking an imaginary point at the peak of that mound. Then probe inward toward the main body of the hand, right on the bone.
- LI05** Over the wrist joint. In the hole formed when hand is bent toward the face.
- LI11** On the extreme end of the outer crease of the elbow. Bend your arm tightly and place your Acu-Ki on the end of the crease. Keep your massager in place while opening the arm and stimulate the point on your relaxed arm downward toward your forearm.
- LI15** At the point of the shoulders. Raise your arm slightly above the level of your shoulder and place your Acu-Ki in the forward most dimple; then keeping your Acu-Ki in the dimple, lower your arm and begin stimulation.
