Point	Description
LI04	On the back of the hand between the thumb and index finger metacarpal bones. Find the spot midway on the bone that connects the index finger to the wrist. Sometimes this point is easy to find by squeezing two fingers together to form a small mound and marking an imaginary point at the peak of that mound. Then probe inward toward the main body of the hand, right on the bone.
LI20	At the flare of the outer nostrils where they join the cheek, on the cheek, rather than on the nostrils.
LU07	On thumb edge of the wrist, 1.5 Cun toward elbow from wrist crease nearest hand. A difficult point to find, but made easier by linking the hands (in picture), find point beneath index finger lying along top of wrist, deep in a small hollow.
UB10	0.5 cun just beneath the base of the skull, on the rosy muscles and 0.5 cun from the spine midline.
UB12	1.5 Cun from the spine midline, slightly below a line between the tips of the shoulders. Easily stimulated with the Back-eze.
